

IMPROVE STUDENT COMMUNICATIONS WITH MESSAGING

SimplyConnect offers teachers and students a safe and secure way to communicate and helps them stay on track towards academic success!

1 Teachers use sanctioned numbers to send assignments to students.

58% of teens use texting as a main source of communication.

Texts have higher open rates than emails.....

...and higher response rates!

2 Students receive a text message homework reminder.

3 Students can respond to teachers with any questions or concerns.

Young Americans send **10X** as many texts as their elders.

4 All messages get stored in an archive for administrative audits.

85%

of students want to be reminded of important info via text.

84%

of students found text reminders useful into college.

86%

of students said they completed projects early due to texts.
